

JHB380freebie

Thank you so much for downloading this freebie. I am sure you are going to have plenty use for it. It is handy to use as bookmarks, or give one to someone who needs a reminder that you are thinking of them. In this day and age we all live in, its sometimes nice to receive a little reminder of that. Also handy to use in craft projects like cards. Enjoy yourself making these.

I have used Marathon thread number 1062 which is a blue and Marathon thread number 1179 which is white, but you can of course use whatever thread colours you wish.

You need Avalon Plus (water soluble vilene) as a stabilizer. Not the plastic one guys, the stitch count is too hight and the plastic will split.

Here are some tips to stitch successful free standing lace.

Always with FSL set your machine on the slowest speed, match your top and bobbin thread for each colour and never fill up a larger hoop with multiple designs. Do FSL in your smallest hoop that the design will fit in.

Open up the design you wish to stitch. Once completed, cut out of the stabilizer. Wash out the stabilizer, dry flat. Once dry, lightly press on the reverse and it is ready to use.

Enjoy!

Kind regards
Helena
